5801 PELICAN BAY BLVD

Job Location: 5801 Pelican Bay BLVD, Unit:BLDG

The Collier County Building Plan Review and Inspection Division routinely reviews all outstanding permit applications in order to determine their status. During our most recent review, we have found that the above referenced permit application has not been issued, and it has been over 180 days since any action has been conducted.

Florida Building Code section 105.3.2 time limitation of application states: *"An application for a permit for any proposed work shall be deemed to have been abandoned 180 days after the date of filing, unless such application has been pursued in good faith or a permit has been issued."*

If no action has been taken by February 11, 2017, your application will be set to void for lack of good faith or abandonment.

In addition, there are outstanding fees that must be paid for building plan review services performed in the amount of < \$0 >. It is considered a willful building code violation to file an application for a permit and not actively address said application to completion, whether that is permit issuance or cancellation of the application. Any expired or void status on an application for a permit may receive further action through Code Enforcement and/or Contractor Licensing to resolve the permit to completion.

As a courtesy, we will hold your application package and plans for a period of 30 days. If plans are not picked up within that time frame, they will be recycled. The building copy and permit application will be sent to the Records Room.

If you need any further assistance, please contact Client Services at 239-252-2493 or gmdpermitextension@colliergov.net and reference this letter.

Sincerely,

Jonathan Walsh
