RE: Grey Oaks DRI – PL20170001729

Dear Mr. Johnson:

On behalf of our client, O'Donnell Landscapes, Inc., we are submitting an application for an Amendment to a PUD for the above referenced project.

The proposed amendment is being requested in order to modify Exhibit E and Map H-1 attached to Development Order Number 2000-04, Resolution Number 2000-190. The amendment proposes to shift two previously approved, but unimproved, project access points from Golden Gate Parkway and Airport Road, to Livingston Road. The two project access points shown on Map H have not been installed; however, they were intended to serve as access points to the Grey Oaks community. The two access points proposed to be shifted to Livingston Road are not intended for general access to the Grey Oaks community, but rather are intended for the sole use by the owner of approximately 32 acres adjacent to Livingston Road. This portion of the Grey Oaks PUD is encumbered by a Florida Power & Light (FPL) easement. An exhibit identifying the existing and proposed access locations is included with this submittal. We have submitted a letter to DEO requesting that they determine the proposed access modifications to qualify as a Chapter 380.06(19)(e)2.k change. If determined by DEO to be an (e)2.k change, an NOPC application is not required. A copy of this correspondence is included in this application.

Please contact me if you have any questions.

Sincerely,

D. Wayne Arnold, AICP
