RATTLESNAKE HAMMOCK ROAD BUS DEPOT FLUCFCS EXHIBIT

Civil Engineers • Land Surveyors
Planners • Landscape Architects
www.GradyMinor.com

An attempt was made to document all preserves that abut the project site. The subject parcel is surrounded by either existing development or undeveloped lands. To the immediate east of the subject parcel is Sierra Meadows. Attached we includes an exhibit showing their preserve. Their preserve abuts to our proposed preserve to the east.

To the immediate west is the existing School bus facility with its preserve. This facility has a 1.15 ac preserve that will line up with our preserve.

Immediately west to the existing bus facility is a parcel of land with a water management feature. Attempts were made to locate any documentation for this parcel and none was found.

To the west of the parcel with the water management feature is College Park. An exhibit showing their preserve has been provided.

Immediately south of the existing bus facility is a parcel owned by Edison Community College (Now FSW). Between this development and the existing bus facility lays the campus's water management pond.

To the east of Edison Community College is a large parcel of land. No preserve documentation could be found for this parcel.

Attempts were made to locate all preserves south of the subject parcel.

Project # 1	College Park
Project # 2	School Bus Terminal
Project # 3	Sierra Meadows
Project # 4	Edison College
