

2/7/2018

To whom it may concern:

This letter is attached to a list of NUMBERS OF ACCEPTANCE (NOA).

All products on the list are part of Sunshine Windows Manufacturing, Inc. line of products.

On this list each product has a description and two NOA numbers.

Old NOAs are approval numbers for the products under provisions of FBC 5th edition (2014).

New NOAs are on the extreme left column. These are the numbers assigned for the product revision in compliance with FBC 6th Edition (2017). Having this number assigned by Miami-Dade County means these products have been submitted to the Product Approval Section after reviewed by the Engineer of record and right now are in the process of evaluation and approval by this authority. As of today, those marked with yellow color on the list are already evaluated, approved and released under the latest code version. This is changing quickly because every week more NOAs are approved and released by MDC Product Approval Section.

Anyone can check the status of the new approvals by visiting MDC web page.

The link to reach this information is noted bellow.

http://www.miamidade.gov/building/pc-search_app.asp

When you reach this page enter the desired NOA number on the "Search by File" box and all available information in reference to the status of this product will show.

If you have any questions do not hesitate to contact our Engineering Department.

Thanks for your attention to this matter.

Sincerely,

Noel Martinez
Assistant Manager
