RE: Facility ID: FLR20AM37-001
Mapleridge@Ave Maria phase 4
County: Collier

Dear Permittee:

The Florida Department of Environmental Protection has received and processed your *Notice of Intent to Use Generic Permit for Stormwater Discharge from Large and Small Construction Activities and Dewatering Operations* (NOI) and the accompanying processing fee. This letter acknowledges that:

- your NOI is complete;
- your processing fee is paid-in-full; and
- you are covered under the *Generic Permit for Stormwater Discharge from Large and Small Construction Activities and Dewatering Operations from non-contaminated sites* (CGD), DEP Document No. 62-621.300(4)(a).

Your project identification number is **FLR20AM37-001**. Please include this number on all future correspondence to the Department regarding this permit.

This letter is **not** your permit; however, this letter does serve as **verification of permit coverage**. A copy of the permit language is available online at <https://www.flrules.org/Gateway/reference.asp?No=Ref-04265> or by contacting the NPDES Stormwater Notices Center.

Your permit coverage becomes effective **January 09, 2016** and will expire **January 08, 2021**. To terminate your coverage prior to this expiration date, you must file a *National Pollutant Discharge Elimination System (NPDES) Stormwater Notice of Termination*, DEP Form 62-621.300(6) (NOT). An NOT must be filed within 14 days of either (a) your final stabilization of the site or (b) your relinquishment of control of the construction activities to a new operator. Terminating coverage under the CGP will also

terminate your dewatering operations. You may not exclusively terminate dewatering operation under this form.

To renew your coverage beyond the expiration date, you must submit a new NOI and processing fee to the Department no later than two days before coverage expires.

Until your permit coverage is terminated, modified, or revoked, you are authorized to discharge stormwater from the construction site referenced in your NOI to surface waters in accordance with the terms and conditions of the CGP. Some key conditions of the CGP are:

- implementation of your stormwater pollution prevention plan (SWPPP);
- implementation of appropriate construction and dewatering best management practices (BMPs);
- conducting and documenting routine inspections; and
- retaining all records required by the permit (including your SWPPP) at the construction site or the alternate location specified in your NOI.

Projects that discharge stormwater associated with construction activity to a municipal separate stormwater system (MS4) shall submit a copy of the NOI or the Acknowledgment Letter within 7 days of receipt to the operator of the MS4.

If you have any questions concerning this Acknowledgment Letter, please contact the NPDES Stormwater Notices Center at (866) 336-6312 (toll-free).

Sincerely,

NPDES Stormwater Program

“Small Construction Activity” means construction activity resulting in the disturbance of equal to or greater than one (1) acre and less than five (5) acres of total land area. Small construction activity also includes the disturbance of less than one acre of total land area that is part of a larger common plan of development or sale that will ultimately disturb equal to or greater than one acre and less than five acres.

Item B.: Provide the approximate total area of land disturbance, in acres, that the project will involve from commencement of construction through completion.

Item H.: Enter the estimated construction start and completion dates in the MM/DD/YY format.

Part VI – Dewatering Information:

If your site has “noncontaminated ground water”, the CGP also authorizes discharges from ground water dewatering activities. A site will be presumed to have uncontaminated if it is not contaminated and there are no known contamination sites within 500 feet of the site. You may use the Department’s <http://webapps.dep.state.fl.us/DepClnup/welcome.do> or the Institutional Controls Registry (ICR) Web Viewer <http://www.dep.state.fl.us/waste/categories/brownfields/pages/ICR.htm> to determine the location of contaminate sites. If stormwater from your project does not discharge to an MS4 but to surface waters of the State, leave this item blank or indicate “N/A” and skip to Item B. of this part. **Please note that if your project discharges stormwater to an MS4, you must provide the MS4 operator with a copy of the completed NOI.** http://www.dep.state.fl.us/water/stormwater/npdes/docs/all_ms4_by_county.pdf

Item B.: If your project discharges stormwater to surface waters of the State, and not to an MS4, enter the name of the receiving water body to which the stormwater is discharged. Please provide the first named water body to which the stormwater from the project is discharged (e.g., Cypress Creek, Tampa Bay, unnamed ditch to St. Johns River, Tate’s Hell Swamp, etc.).

In certain cases, stormwater from the project will discharge to both an MS4 and surface waters of the State. In this case, complete both Item A. and Item B.
